CONCRETE | MADE 2.0

Design surround

The 5 textures and 13 colours make Concrete / Made 2.0 a flexible ceramic system designed to be applied in every architectural project. Can be adapted with chromatic coherence to the different needs of living: the same colour can be used for example in an access floor with a concrete effect (Concrete), then on walls (Made 2.0 Levigato), in the external areas with an anti-slip bush hammered surface (Made 2.0 Bocciardato), for kitchen tops and vanity tops (Concrete through body).

Le 5 diverse superfici disponibili fanno di Concrete / Made 2.0 un flessibile sistema ceramico a servizio del progetto architettonico. Si adattano con coerenza cromatica alle diverse esigenze dell'abitare: lo stesso colore ricorre così in un ingresso con effetto cemento (Concrete), in pareti rivestite (Made 2.0 Levigato), negli esterni pavimentati con bocciardato antiscivolo (Made 2.0 Bocciardato), nel rivestimento di piani cucina e mobili bagno (Concrete tutta massa).

Concrete Signs

Four delicate waves | Quattro trame delicate

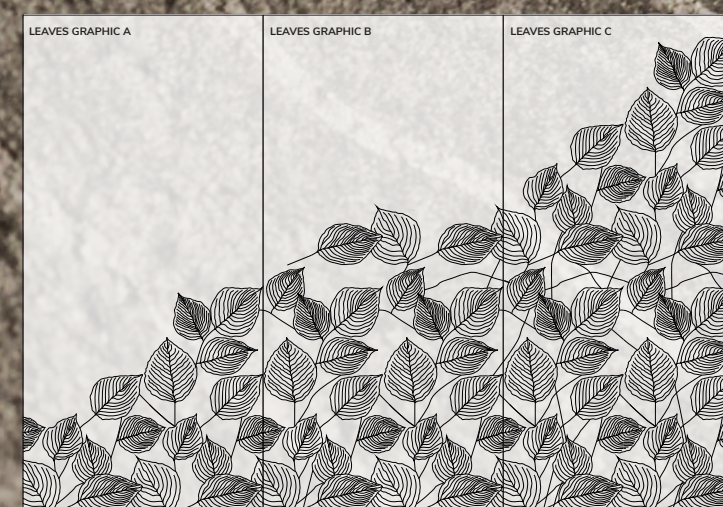

With its new Signs decoration the Concrete range is expanding to include a sophisticated and stylish product. Four delicate weaves enrich the original material's aesthetic and decorative value. Each of the four decorations has been designed to give the spaces you live in a pronounced expressive identity. Buds – a light botanical motif for dreamy and welcoming atmospheres; Leaves – an immersive nature inspired decoration for gentle, delicate effect spaces; Cubes – a geometric pattern with a balanced mood for vintage and contemporary inspired creations; Essential – versatile decorations to add a touch of character to all contexts. Available in 120x250 and 60x120 formats Signs stands out for impeccable technical performance.

Con il nuovo decoro Signs, la linea Concrete amplia la propria gamma aggiungendo un prodotto dall'aspetto raffinato ed elegante. Quattro trame delicate arricchiscono la materia originale valorizzandone la valenza estetica e decorativa. Ognuna delle quattro trame decorative è pensata per conferire un forte carattere espressivo ai luoghi dell'abitare. Buds – un motivo botanico leggero, per ambienti dall'atmosfera sognante e accogliente; Leaves – un decoro avvolgente d'ispirazione naturale, per donare agli spazi un animo gentile e delicato; Cubes – un pattern geometrico dal mood equilibrato, per creazioni d'ispirazione vintage e dal carattere contemporaneo; Essential – un decoro versatile che aggiunge una nota di carattere ad ogni contesto. Disponibile nei formati 120x250 e 60x120, la serie Signs si distingue per le impeccabili prestazioni tecniche.

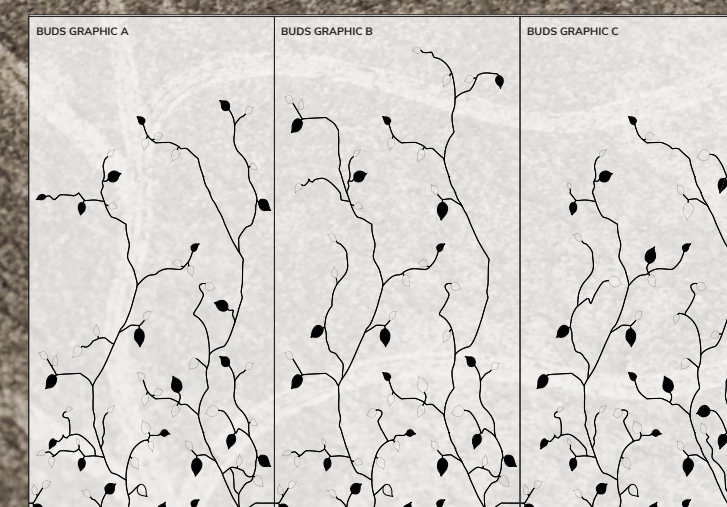

1. Buds | 2. Leaves | 3. Cubes | 4. Essential
Available in all the Concrete collection's colours. / Disponibili in tutti i colori della serie Concrete.

Blend offers further decoration possibilities, using Concrete / Made 2.0 bush hammered cut into listellos. Blend is available in 12 mm or 4.8/6 mm thickness in listellos of 5x60, 10x60 and 15x60. In 12 mm thickness the listello of 10x60 is Made 2.0 bush hammered same colour.

Blend offre una ulteriore possibilità di decorazione, proponendo Concrete / Made 2.0 bocciardato in listelli. Blend è disponibile in 12 mm o 4.8/6 mm di spessore e in listelli di 5x60, 10x60 e 15x60. Nel 12 mm il listello di 10x60 è Made 2.0 bocciardato nello stesso colore.

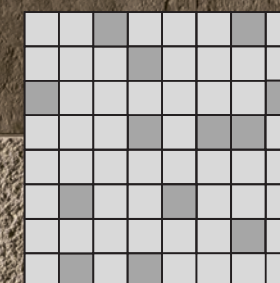

Shades

Details that define the space | Dettagli che definiscono lo spazio

Shades has been designed to enhance the shading effect of modern and minimalist ranges like Concrete / Made 2.0. These two collections are produced in big size slabs 120x120cm and are then cut and rectified to 15x15cm. This way it is possible to mix colours and surfaces to increase chromatic depth. This format allows the look not to stop in a single point but to wander around the whole surface, creating natural effects and shades of colour.

Shades è un formato pensato per amplificare l'effetto di stonalizzazione presente in serie moderne e minimaliste come Concrete / Made 2.0. Queste due collezioni sono prodotte in lastre di grandi dimensioni 120x120cm. Le lastre vengono poi ritagliate e rettificate nel formato 15x15cm. In questo modo è possibile intersecare i colori e le superfici per aumentare la profondità cromatica. Il formato fa sì che lo sguardo non si soffermi su nessun punto particolare, ma che corra sull'intera superficie posata, creando effetti e gradazioni di colore naturali.

Gigacer Service

Measure working service | Servizio di lavorazioni su misura

Gigacer Service is the firm's made to measure working service offered on all products. It enables slabs to be cut, perforated, polished and generally adapted to the individual project in line with the requisites of a specific client design. In this way the ceramic slabs can be used both to create decor elements and to personalise or adjust slab dimensions to flooring or decor designs. In this way the ceramic slabs can be matched with, or even identical to, the kitchen worktop, flights of steps, the bathroom worktop and even the basin in an infinity of possible forms and dimensions. Each single piece can be made in accordance with designers' instructions and technical drawings.

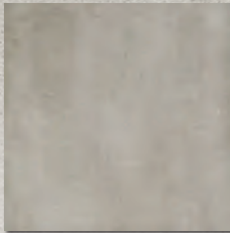

Gigacer Service è il servizio di lavorazioni su misura offerto da Gigacer su tutti i suoi prodotti. Consente di tagliare, forare, lucidare e in generale adattare le lastre al singolo progetto, seguendo le indicazioni di uno specifico disegno del cliente. In questo modo le lastre ceramiche possono essere utilizzate sia per realizzare elementi d'arredo, sia per personalizzare o adeguare al progetto le dimensioni di lastre per pavimento o rivestimento. Il pavimento o il rivestimento potrà così essere abbinato o addirittura identico al top cucina, ai gradini della scala, al top bagno o anche allo stesso lavabo, in una infinita possibilità di forme e dimensioni. Il pezzo unico viene realizzato anche seguendo le indicazioni e il disegno tecnico del progettista.

24 mm thickness is obtained by gluing two standard 12 mm thickness slabs with special high resistance glues. If the order contains the same product in 12 mm thickness it is possible to ask for the same batch. In case the 24 mm material has to be cut, it is recommended to seal the cut edge with water-resistant two-component grout. / Lo spessore 24 mm è ottenuto tramite l'incollaggio di 2 lastre di spessore 12 mm mediante speciali collanti ad altissima resistenza. Se abbinato a fondo in 12 mm è possibile richiedere lo stesso tono. Nell'eventualità in cui il materiale 24 mm debba essere tagliato, si raccomanda di stuccare il bordo tagliato con stucco bicomponente impermeabile.

Note: the products with the Gigacer Service label  will be manufactured only upon specific request and they will be quoted where necessary. / Nota: gli articoli con il marchio Gigacer Service  saranno prodotti solo su specifica richiesta e quotati ove necessario.

For inquiries concerning different sizes from the ones indicated, please contact Gigacer Service. / Per dimensioni diverse da quelle rappresentate, contattare Gigacer Service.

(!) All sizes are in millimetres (!) / Tutte le misure sono in millimetri.

CONCRETE | MADE 2.0

Calibers Calibri

Our slabs are always rectified and the table below indicates their final size in millimetres. Our standard caliber is 09 and all sizes with the same caliber, when multiples, are modular with 2 mm joint spacing.

Le nostre lastre sono sempre rettificate e hanno dimensioni finali in millimetri come da tabella. Il calibro standard è lo 09 e i formati dello stesso calibro multipli tra loro sono modulari con 2 mm di fuga.

Nominal size (cm) Formato nominale (cm)	Rectified size (mm) Formato rettificato (mm)	Caliber Calibro
120x250	1190x2500	09
120x120	1190x1190	09
60x120	594x1190	09
60x60	594x594	09
30x60	296x594	09
30x30	296x296	09
15x60	147x594	09
10x60	97x594	09
5x60	47x594	09
15x15 Gigacer Shades	146x146	00

Coefficient of friction Coefficiente d'attrito

*Average value. / Valore medio.

The values of slip resistance and of static and dynamic friction coefficient shown in the catalogue, and in the web site are merely indicative and non-binding. Any possible specific requirement must be confirmed by us at the order and anyway always before the installation. I valori di resistenza allo scivolamento, coefficiente di attrito statico e dinamico, riportati sul catalogo e sul sito, sono da ritenersi puramente indicativi e non vincolanti. Ogni eventuale specifica necessità dovrà essere da noi confermata al momento dell'ordine e comunque sempre prima della posa.

We produce technical unglazed porcelain stoneware slabs, and some light impurities and dots must be considered as a standard feature of the product. / Trattandosi di un prodotto tecnico a solo impasto senza smalto alcune impurità e puntature visibili nei colori chiari sono da considerarsi una caratteristica tecnica del prodotto.
